Team Building & Blending

WORKSHOPS WITH WINE

GATHER. CREATE. CELEBRATE.

Leadership workshops have never been like this before. The Sannino's invite you to join them with your company's employees for a day unlike any other. Step into Long Island Wine Country, immerse yourselves in the beauty of grapevines, oak barrels and the world of wine... become winemakers for the day!

Owner and winemaker, Anthony Sannino, will lead your group on a tour of Sannino Bella Vita winery and provide you with an overview of the winemaking process and life as a vintner. Throughout the experience, your staff will learn about Long Island varietals including Merlot, Cabernet Sauvignon, Cabernet Franc, Chardonnay and more, while having the opportunity to taste each one. Then, participants will break into separate groups and work as a team to make their very own custom blends.

This exclusive program is aimed to bring your team together in an entertaining and educational environment. It combines the elements of leading, collaborating and agreeing on a delicious result from tasting and blending together a wine for all to enjoy.

It's amazing what happens when colleagues get together in a setting where they can sip wine but also learn about how it was made, its tasting notes and how the weather affects the grapes- all in a cozy, rustic barn atmosphere.

Please contact us for further information or if you have any detailed questions. We look forward to building your customized workshop with you!

Sincerely,

Lisa & Anthony Sannino
